There were a few instances throughout my career that sparked my interest in the Peer Support Team. Those scenarios were due to a few individuals who were having issues with diversion. I believed that I could help navigate their journey to sobriety. I have been blessed to work closely with my dear friend, Jack Stem, who worked tirelessly guiding, teaching, and supporting me through the process of helping those that need assistance.

I am a strong believer in the strength and resilience of the human spirit and I am blessed to help anyone who reaches out, and trusts their journey and the process to wellness.
